

"DEDICATED TO CUSTOMER SATISFACTION"

OVERVIEW UEI II

Since being founded in 1980, Universal Electronics has been driven by one commitment – dedication to customer satisfaction. Our newest facility, in East Troy, Wisconsin, aptly named UEI II, is a direct reflection of that dedication.

Opened in 2010, our East Troy, WI facility resides in a modern 40,000 square foot building and is ISO9001:2008 registered. With this facility we can quickly scale production capacity and effectively plan for and accommodate future growth with our two plants in Wisconsin, now totaling almost 130,000 square feet.

UEI II offers rapid prototyping, strong program management, and quick integration for volume manufacturing. By offering a flexible engagement model, our East Troy plant can offer customized programs for low-to-mid volume PCBs and full box-build assemblies. We have the technical and physical resources, along with a robust supply chain, to support large-scale box assemblies.

The UEI II facility serves a variety of industries including industrial, telecom, lighting, and laboratory. We will continue to make the investments necessary to provide superior electronic contract manufacturing and services, just as we have done for the last three decades.

Capabilities:

- High-speed automated SMT lines
- Automated thru-hole, axial insertion
- Automated optical inspection (AOI)
- In-circuit Test (ICT)
- Wave soldering
- Complex mixed technology
- ROHS compliant assembly
- Complete box build
- Full turn-key solutions

Services:

- Prototype and New Product Introduction (NPI) builds
- Program management
- Quick, flexible response to schedule adjustments
- Test
- Material strategies
- Ramp-to-volume manufacturing models
- Return and repair services

UEI has multiple facilities in the upper Midwest and our Whitewater, WI facility is ISO9001:2008, ISO13485:2003, and ITAR registered. As a supplier of electronics manufacturing services of unmatched quality, we offer flexible engagement models and cost-effective time-to-market strategies, executed by an experienced senior management team.
